

European Journal of Neurodegenerative Diseases 2024 Sep-Dec Vol.13, ISSUE 3

CONTENTS

ROLE OF FOCUSED TRANSCUTANEOUS NEUROMODULATION IN THE ASSESSMENT AND TREATMENT OF MYOFASCIAL PAIN SYNDROME: A PILOT STUDY. G. Barassi, A. Di Iorio, R. Pellegrino, L. Prospero, C. Marinucci, A. Moccia, V. Guglielmi, A. Younes, L. Di Matteo, P.E. Gallenga and M. Panunzio	65-71
MULTIPLE SCLEROSIS AND BIO-PHYSICO-METRIC APPROACH: EFFECTS OF FOCUSED MECHANO-ACOUSTIC VIBRATIONS. G. Barassi, L. Prospero, M. Panunzio, A. Frattaruolo, C. Marinucci, C.E. Gallenga, A. Moccia, G.L. Matera, L. Zeppa and P.E. Gallenga	72-80
SOMATOMEDIN (INSULIN-LIKE GROWTH FACTOR) IS IMPORTANT FOR DEVELOPMENT, MATURATION, AND BRAIN FUNCTION. G. Anogianakis and D. De Amicis	81-84
BRAIN T CELL SUBSETS POTENTIALLY PARTICIPATE DYNAMICALLY IN NEUROINFLAMMATION AND NEURODEGENERATION. G. Ricciardi and U. Vincenzi	85-89
PHYSIOPATHOLOGY OF TYROSINE KINASE RECEPTORS IN THE BRAIN. T. Ferrulli, F. Massi and M.A. De Lutiis	90-93
HYPERKALEMIA AND BRAIN FUNCTION. C. Annichiarico	94-97
CAN ASTHMA AFFECT BRAIN ACTIVITY AND VICE VERSA? K. Metodiev and A. Younes	98-100
